Chicagoland Printers Scholarship Golf Outing

Three Chicago area printing trade associations have combined efforts to further their scholarship programs — the Graphic Communications Guild, the Great Lakes Graphics Association and the Lithographers Club of Chicago. In the past, each club has been responsible for awarding thousands of dollars in scholarships to deserving students continuing their education in the printing industry at the high school, college and university level. By combining efforts, these organizations will increase their respective scholarship funds so that more students can benefit as needed. Your support of our annual golf outing will assure the continuance of these scholarship programs.

The Graphic Communications Guild, formerly the Printers Guild, was created in 1920 as a way to promote, encourage and foster a spirit of friendly relationship, cooperation and mutual education among printers and the allied trades.

The Great Lakes Graphics Association is the trade association dedicated to representing the graphic arts industry throughout Indiana, Illinois and Wisconsin through education, promotion and government affairs. GLGA is the result of the merger between the Printing Industry of Illinois/Indiana Association and the Printing Industries of Wisconsin, and is an affiliate of the Printing Industries of America.

The Lithographers Club of Chicago was established in 1928 to exchange ideas, promote social relations and strengthen friendships within the printing industry. Currently, the LCC is the largest trade association in the Midwest, and like the other organizations, are dedicated to raising funds for support of their scholarship program.
