

Safety Audit Program

With increased scrutiny from the United States Occupational Safety and Health Administration (OSHA), print-related companies are receiving more attention from OSHA than ever.

Currently, the printing industry is the sixth most visited industry in the United States with OSHA issuing an average citation of \$7,500.

To assist GLGA members with safety needs, the Great Lakes Graphics Association has created a safety audit program for the industry that is convenient, affordable and effective.

During the GLGA Safety Audit Program visit, the safety auditor will:

- Review your safety programs and employee training manuals.
- Assess safety data sheets.
- Ensure documentation is compliant.
- Provide verbal direction on the areas a visited company can improve on.

**Don't Be
Unprepared**

**Don't go another day without understanding how at-risk you may be.
Contact GLGA toll-free today at (855) 522-2210.**

The safety audit takes approximately two hours and costs \$200. Those companies that are outside of a 30 mile radius of the safety consultant will be required to pay the current IRS travel mileage reimbursement rate in addition to the cost of the audit.

Great Lakes Graphics Association (GLGA) is the print industry trade association representing nearly 425 members in Illinois, Indiana and Wisconsin. *Disclaimer: Participants of the GLGA Safety Audit Program do so at their own risk. Employers are solely responsible for the effectiveness of their safety programs and policies and implementing the information and direction provided by the safety consultants.*
