Year founded: 1998

Q. Tell us about your company.

A. Diamond Die & Bevel Cutting, LLC was founded to serve the finishing needs of the Chicagoland print community. Our 30,000-square-foot facility is centrally located allowing us to best serve all of the Chicago market. Since 1998, every piece of equipment added to our production floor has been to enhance our full line of finishing capabilities. From providing **die cutting, foil stamping & embossing, folding & gluing, guillotine cutting, shrink wrapping, auto bagging & labeling, mounting and more**, Diamond Die & Bevel has Unlimited Finishing & Creative Solutions to help you finish your project.

Q. What is your specialty?

A. Our specialty is making things easy for our customers. From free pick-up and delivery (up to 25 miles) to accommodating short turns and welcoming any size project, we are here to serve. There is always someone here to greet you when you call us and to get back to you quickly with the information you need to keep your project moving.

As far as products are concerned, we see a lot of pocket folders, door hangers, mailers, brochures and more come through our doors every day. You can check out some of these projects at www.ddbcutting.com.

Q. What is your favorite kind of project to do?

A. As a finisher, we see just about every type of project come through our doors and all are welcome. However, those that touch multiple areas of our capabilities (i.e. – die cutting, foil stamping, folding and gluing) and allow us to return a fully finished product to our customer might just be at the top of the list.

Q. What has been your most memorable project?

A. Most recently we completed a packaging project for a client who was looking for a creative, effective way to display glass samples of their line of garage doors. In a collaborative effort with the printer and the client, we were able to create a piece that was unique and functional. Diamond Die provided the die cutting, coordinated the manufacturing of the foam inserts, assembled each package and inserted each piece of glass that we had already individually labeled. Then, each piece was carefully packed and shipped to the corporate headquarters in Ohio. It was a team effort from start to finish.

Q. What's new at your company?

A. The leadership is new at Diamond Die & Bevel. Bringing in a new Director several months ago has focused the great team at DDBC and unified everyone. We are working each and every day to improve how we do things so we can best serve our customers. When a group of good people are working together towards one goal, great things can be achieved.

Q. When should another member call you for help?

A. Members should call us whenever they need assistance with the completion of a project! We have so many capabilities and are here to help. Whether that means lending knowledgeable advice, to providing free estimates and scheduling your project for completion. Call us at (224) 387-3200 for a quote today!
